Peter S Gorgone

1930 Village Ctr Circle, #3-3161
Las Vegas, NV 89134
(424) 241-9327
peter@peltronic.com

Professional full stack web developer passionate about building web applications using modern technologies and best practices. Architected and built 2 major web applications for NewLogix, Inc., targeting project management customized for the utility industry. Currently searching for full-time employment.

EXPERIENCE

PSG Consulting, Las Vegas NV — *Contractor/Owner*

2010 - Present

Developed various sites and apps for clients on a freelance basis, ranging from e-commerce sites such as Axiom Images to rich-media experiences such as One Day on Earth. Selected projects are detailed below.

JMBM, Los Angeles CA — *Lead Full-Stack Developer*

January 2019 - June 2019

Designed, architected, and built new turnkey intranet for Jeffer Mangels Butler & Mitchell law firm. Features included: a searchable employee directory with ability to filter by department, practice, etc; fuzzy matching algorithm to locate possible client activity in a daily feed of new court cases; custom Content Management System (CMS) allowing employees to add, edit, and remove site pages and contents.

Laravel 5.6 + PHP 7 | MS SQL + IIS | Javascript+JQuery | EC2+RDS | Bootstrap 4

Axiom Images — *Lead Full-Stack Developer*

2014 - 2015

Axiom Images is an e-commerce site specializing in aerial video footage. Re-built customer-facing site and admin portal in Laravel. Optimized filters for video search to handle 20,000+ video products, resulting in greatly improved UI responsiveness. Added AJAX-driven widgets to provide a smoother and more modern user experience.

Laravel 4.2 + PHP | MySQL | Javascript+JQuery | Rackspace | Foundation

www.axiomimages.com

One Day on Earth — *Worldwide video site documenting 10/10/10*

2010 - 2013

Built map-based site documenting thousands of videos shot by volunteers worldwide on the date 10/10/10. Integrated various 3rd party libraries and services such as Google Maps, Vimeo, and Ning. Features include keyword-based search, marker-clustering, comments, and user ratings.

Codeigniter + PHP | MySQL | Javascript+JQuery | EC2+RDS
